Change
Your Life

The smallest four-wheeled vehicle
100% electric in the world.

BIRÒ
I'm easy

01 Park it where you want.

Finding a parking spot is no longer a challenge: **Birò is very small and you can park anywhere**, including parking spots designated for scooters*.

02 You are always protected.

Birò is small, but sturdy. Its **security frame** made from thick tubular steel protects you and the passenger.

03 Charge the battery anywhere.

Our batteries **can be charged with a traditional 220 V domestic outlet**. With the Re-Move system, you can remove the battery like a trolley and charge it anywhere!

04 You choose whether to buy or rent it.

The possibilities for driving a Birò are endless: **buy**, even with financing or **short, medium and long-term rental**.

05 Stay away from stress.

All those hours lost in traffic... forget them! **With Birò you move easily through the city center** and you can even drive in limited traffic zones*.

06 Saving is easy.

With Birò **you can travel 100 km for € 3**** and maintenance costs are reduced compared to the car to a minimum.

* Check the regulations of your city/nation.

** February 2023 data

Choose between...

BIRÒ SMALL

179 cm long
111 cm wide
122 L of internal trunk

BIRÒ BIG

183 cm long
111 cm wide
308 L of external trunk

Choose the powering that is right for you!

45 Maxi
