

EC-AMBULANCE

ELECTRIC AMBULANCE

Passenger Capacity:

2+1 People

Range:

>60--100 depends on battery setup

Electric Motor:

3.8KW DC / AC

Maxload:

300kgs

Batteries:

Deep cycle, lead acid battery, Trojan brand, imported

Braking System:

Mechanical brake

Drive:

Rear axle two stage deceleration, motor direct driving

Roof:

Injected plastic

Accelerator:

Stepless speed change

Vehicle Dimensions:

2350X1180X1800

Speed:

32-40 depends on motor and rear axle setup

Climb:

20%

Min. Turning Radius:

3.5

Controller:

Curtis brand, Separately excited, imported

Charger:

Input 110V-240V~50Hz-60Hz, output 36V/48V, 20A/25A

Body:

PP plastic front body + PP plastic rear body

Wheel & Tyre:

10x6 Aluminum wheel & 205/50-10 4PR
